

1 Introduction

Isn't this so much easier to read? I know it would kill a printer, but most of the time we don't use a printer. We just stare at the pdf, then at the raw LaTeX, then at the pdf. So while we are composing a paper, or a thesis, or just writing up some notes, lets have something nice on the eyes that we just get rid of later. Happy typing!

$$a = \frac{1}{2}x \tag{1}$$

$$\int f(x)^2\mathrm{d}x$$

$$b = 2$$

$$f(x) = 2$$

$$\begin{aligned} f(x) &= x - y + 3 \\ &= 0 \end{aligned}$$

$$\tag{2}$$

1	0	0
0	1	0
0	0	1
